Message

It is interesting to note about the varied undergraduate and postgraduate courses offered by Veer Madho Singh Bhandari Uttarakhand Technical University. Its affiliations with the All India Council of Technical Education, Pharmacy Council of India, Council of Architecture, and Bar Council of India allows it to offer a diverse range of subjects to its students.

To provide equal and opportune quality education across Uttarakhand, its distinct campuses spread over Dehradun, Gopeshwar, New Tehri, Pithoragarh, Tanakpur, and Uttarkashi offer students ample choice in studying close to home, thereby reversing migration to cities in lieu of better prospects. Contemporary specializations such as Artificial Intelligence and Machine Learning, Data Science, the Internet of Things, Cyber Security, Robotics and Automation, Business Administration are taught by professionals in their fields to adhere to industry levels.

I wish all the faculty and the administration success in their endeavours. And I urge all the students to experience the enhanced and technology driven career prospects during their study at Veer Madho Singh Bhandari Uttarakhand Technical University.

Lt Gen Gurmit Singh
